

COUNTY OF SOCORRO
EMERGENCY DETERMINATION FORM

The emergency procurement method (NMSA 1978, Section 13-1-127) may only be used when there exists a threat to public health, welfare, safety or property requiring procurement under emergency conditions. The existence of the emergency condition creates an immediate and serious need for services, construction or items of tangible personal property that cannot be met through normal procurement methods and the lack of which would seriously threaten:

1. The functioning of government;
2. The preservation or protection of property; or
3. The health & safety of any person

I. Name of Agency: Socorro County

Agency Chief Procurement Officer: Sammie Vega-Finch

Telephone Number: 575-835-0589

II. Name of Contractor: Great Western Specialty Systems, Inc.

Address of Contractor: 8410 Washington Street NE, Suite A, Albuquerque, NM 87113

Amount of prospective Contract: \$2,988.30

Term of prospective contract: Single Purchase

III. Please thoroughly list the services (scope of work), construction or items of tangible personal property of the contract:

Replaced a power supply that had stopped functioning, due to a suspected power surge.

IV. Provide an explanation for the justification of the procurement including a description of the emergency condition(s) requiring use of emergency procurement and the practicable competition utilized in compliance with NMSA 1978, Section 13-1-127.

PRIOR to being fixed, there was no functioning fire alarm system at all. All sensors and monitoring were not being powered and were not functional.

V. Please describe what measures are being taken to minimize the duration and effect of this particular emergency procurement (for example: is the emergency only in place until a competitive process can be completed, etc.).

with the repair done, the system is functional for now.

VI. Describe what measures the Agency will take in the future to prevent/mitigate use of an emergency procurement under similar circumstances.

We obtained 1 bid so far from the provider to install surge protection to try to prevent this or other damages from happening in the future.
