

COUNTY OF SOCORRO
EMERGENCY DETERMINATION FORM

The emergency procurement method (NMSA 1978, Section 13-1-127) may only be used when there exists a threat to public health, welfare, safety or property requiring procurement under emergency conditions. The existence of the emergency condition creates an immediate and serious need for services, construction or items of tangible personal property that cannot be met through normal procurement methods and the lack of which would seriously threaten:

1. The functioning of government;
2. The preservation or protection of property; or
3. The health & safety of any person

Sounds good!

Jail personnel, would you please send over any documents the contractor provides immediately after service is complete so that we can process it as an emergency.

Thank you,

Subject: Jail emergency purchases

Hi, I've authorized emergency response purchases for the jail. We had another lightning strike today that fried the fire alarm board. Great Western will be in first thing in the morning and I've asked the guys to purchase a surge protector
